DVD ★VIDEO

HEADRESTS★DROP-DOWNS★STREAMING AND MORE

REPLACEMENT HEADREST SYSTEMS

The 7" headrest system incorporates HDMI/MHL inputs that give the user direct connection to any HDMI/MHL enabled device. This provides delivery of external high-definition audio and video content without losing a still popular DVD player.

A true vehicle specific program that meets and exceeds the most stringent federal motor safety standards. The color, material, grain pattern and stitching will match your factory headrests. Solid frame construction with multiple assembly shapes to match the original factory headrests !

You Can ADD-ON

two wireless game controllers !

(sold separately)

- **Dual replacement custom headrests (material,color,grain,stitch,piping matches factory)**
- **Dual 7" digital monitors with LED back-lighting**
- **Resolution 800x480**
- **adjustable viewing angles**
- **Both monitors incorporate dual channel wireless headphone transmitters**
- **Two Wireless remote controls**
- **Wired headphone inputs on both monitors**
- **Hide away junction box**

-RCA A/V input

-Full band wireless Fm modulator

-RCA A/V output

-RF output for hardwired FM modulation connection

-Game port

REPLACEMENT HEADREST SYSTEMS

The 8” headrest systems integrate tablet technology with our custom headrest DVD systems. We designed the Android OS to be non-removable, to eliminate any concern of damage by taking what would be a standard tablet in and out of a vehicle. Tap into a wi-fi hot-spot and your backseat passengers can immediately enjoy all the features that android has to offer. Surfing the web, playing

- **Headrest monitors with 8” digital LED back-lit panels**
- **Resolution (800x480)**
- **Touch screen control with user friendly interface**
- **Android operating system**
- **Fast dual core processor**
- **Adjustable viewing angle**
- **Built in camera and microphone**
- **Built in memory (8gb-expandable to 32gb)**
- **HDMI/MHL outputs as well as A/V input and output**
- **RF output for hand wired Fm modulator connection**
- **Game port**
- **built in Wi-Fi (needs 3g/4g) hot-spot to feed internet access while driving outside of coverage**
- **USB and SD card inputs**
- **2 remote controls included with hidden away junction box**

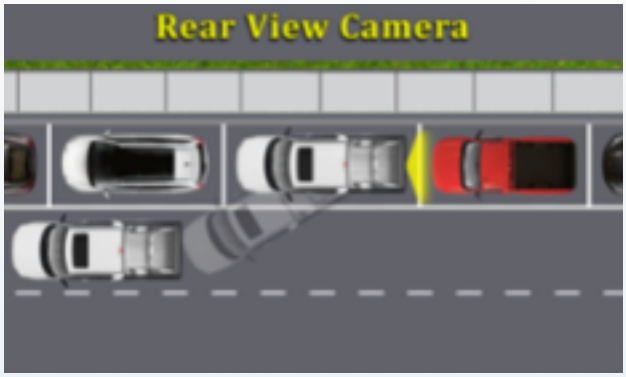
FRONT VIEW CAMERA

BLIND SPOT CAMERA

TRAILER/360 CAMERA

FLIR NIGHT VISION CAMERA

VIDEO INPUT



Automatically displays the rear view camera image on the screen when the vehicle is placed into reverse. The SVS-6 can give rear view camera priority while in reverse or selectable priority to the side view cameras. In addition, the SVS-6 adds the ability to display the rear view camera while in motion and in any gear.

Add a Front View Camera to the OEM or aftermarket LCD screen*. Great for off -road use or for parking. The camera can be activated at any time and has a configurable automatic time-out feature which is selectable through dip switches.

The Blind Spot or Lane Departure Cameras (Right & Left) will be displayed on the radio screen automatically whenever the turn signal indicator is activated. A configurable 12 second timeout or continuous operation

If a trailer system is attached to the vehicle, the SVS-6's video sensing input will automatically bypass the rear camera input while in reverse and display the trailer or 360 degree camera on the OEM or aftermarket LCD screen*.

Add a FLIR Pathfinder II to the OEM or aftermarket LCD screen*. Great for o -road use or night time driving. The camera can be activated at any time and has a configurable automatic time-out feature

Mobileye Lane Departure Warning

Mobileye alerts the driver with audible and visual warnings when there is an unintended departure from the driving lane.

Mobileye Forward Collision Warning

Mobileye alerts the driver seconds before an imminent collision with the vehicle ahead, giving enough timer the driver to react and avoid or mitigate an accident.

Mobileye Pedestrian Collision Warning

Including Bicycle Detection

Mobileye alerts the driver with audible and visual warnings before and imminent collision with a pedestrian or bicyclist.

Mobileye Headway (Following Time) Monitoring and Warning

Mobileye continually monitors your following time from the vehicle ahead and alerts you when the distance becomes unsafe.

Mobileye Intelligent High Beam Control

Mobileye automatically raises and lowers the high beams without inconveniencing oncoming or preceding traffic.

Optional Display Mirror

Mobileye Eyewatch Mirror

Buttons located on the back control the Mobileye functions.

LANE DEPARTURE & FORWARD COLLISION WARNING

LDWS100
